

White Paper – XRP1B

The Meme That Doesn't Promise \$589 (But Delivers Hype & Laughter)

Introduction

XRP1B was born as a **direct satire of XRP** — that token some still believe will one day hit \$589 😊. But we're not here to sell dreams. Unlike XRP's 100B supply, XRP1B has only **1 billion tokens**.

So if someone's getting rich first... it's **XRP1B holders**. 🦄💰

Launched on the **BNB Smart Chain**, XRP1B combines **meme power**, **unicorn chaos**, and **community-driven hype** to deliver a fresh and fearless meme coin that makes fun of the old while riding into the future.

Vision

To take XRP1B to the top of the meme coin ecosystem, uniting **community**, **humor**, and **crypto gains** — while giving a wink to the XRP believers still waiting for a miracle.

Mission

- Build a loud and passionate community
 - Deliver maximum fun with minimal promises
 - Use memes as marketing weapons
 - Grow organically, not institutionally
 - Flip the narrative — XRP1B is faster, funnier, and potentially richer
